

**RTDC6 meeting 1./2. July 2008, Switzerland
preliminary agenda:**

- Presentation of uncertainty analysis
- State of TET tables
- Discuss major discrepancies between WMO's and researcher's opinions (maybe partly host rock specific?)
- Agree on contents and requirements (incl. external reviewer) for the final 6.2 report
- WP6.1 update (Jose-Luis Cormenzana)
- WP6.3 update (Bernhard Kienzler)
- Topical session during November Workshop

The 8th ExCom meeting (Gunnar Buckau, Lara Duro, Bernhard Kienzler) will also take place during the two days and the necessary time has to be allocated.
